Remember in the real exam you will have only eight questions and not 12! This is for extra practice!

Problems for actors

Many actors do not like working (0) children or animals. This is probably (13) they are afraid that the audience may become (14) interested in the children and animals than in them.

Actors can have problems (15) a different kind when they are required to eat or drink on stage. If they have (16) much food in their mouths, the words they say may not (17) clear, and they may even end up coughing or choking.

Other problems can occur with food (18) films are being made. In a recent film, during (19) a family was waiting to have a meal, one of the actors entered with a large roast chicken on a tray and started cutting some meat from it while he was speaking. Having cut off a whole chicken leg he completely forgot (20) his next words were. The scene had to be filmed (21) This would not really have mattered (22) there had been another roast chicken in the studio, but there was not. At (23), nobody knew what to do, but eventually the problem was solved (24) putting a nail in the leg and attaching it back onto the chicken.
